

## SIP INVESTMENT PROPOSAL FOR CHILD EDUCATION

Child Higher Education is the gateway for entering the Corporate world or the choice of their profession. But unplanned savings and ignoring the inflation impacts on the future cost of Education becomes a burden on Parents and results in aspiration lost. Proper investment targeting the inflation adjusted future cost keeps you on the right track.

Let's look at some scenarios.

### • Scenario 1

Your child is 1 year of age and preparing next year to join Play School. This is a good time for you to start preparing for his/her higher education starting at the age of 18 and then post graduation at around 21 years of age. A good estimate of future cost could be Rs.1 Crore for Graduation & Rs.2 Crores for Post Graduation Expenses.
